

Presented here is a collection of Commonwealth Railways Buildings and Civil Diagrams from the CCE Diagram series originally produced by rail operator the Commonwealth Railways. Please note that the diagrams are not depicted to scale in this format, and are presented as originally drawn.

The subject material is the Australian Railways.

Document design, layout: Chris Drymalik, July 2024. Marked up using $\text{\LaTeX}$

Document compilation date: August 8, 2024

The National Railway Museum houses a vast repository of historical data pertaining to entities like the South Australian Railways, Commonwealth Railways, and Australian National Railways. Our extensive collections are accessible to the public via appointment. Should you wish to schedule a visit to explore our archives, kindly reach out to the National Railway Museum by contacting our Archives Curatorial Team.

We are dedicated to assisting researchers with inquiries related to Australia's railway history. For any queries concerning railways, feel free to contact us.

The digital book available here represent just a fraction of the wealth of records housed within the NRM archive. It has been compiled to aid researchers and enthusiasts interested in the rich tapestry of Australian railways. We trust you will find it invaluable.

The Museum does not hold records relating to railway employees, we recommend that you contact the State Records of South Australia or the State Library of South Australia if you are looking for railway employee information. For a general overview on researching Australian railway employees please see the Railway Employees Leaflet. Copies of Photographs and Documents

The National Railway Museum can be contacted via its web site, which can be found at <http://nrm.org.au/>
